

ContractWorks Contract Management Software Announces ContractWorks Connector on the Salesforce AppExchange, the World's Leading Enterprise Apps Marketplace

ContractWork's customers can now benefit from the ability to easily send a contract from Salesforce directly to their secure contract repository.

Goleta, March, [x, 2018] – ContractWorks, a user-friendly, secure, and affordable contract management software, today announced it has launched ContractWorks Connector on the Salesforce AppExchange, empowering businesses to connect with their customers, partners and employees in entirely new ways.

ContractWorks Connector allows customers to easily send a document or contract from Salesforce directly to their contract repository in ContractWorks with the click of a button. Contracts can then be sent out for signature, or completed contracts can be tagged and tracked to ensure milestone dates are met. No longer is there a need to switch programs to find a contract or document, which saves time and maximizes productivity.

Built on the Salesforce Platform, ContractWorks Connector is currently available on the AppExchange [here](#).

“ContractWorks Connector is a game changer for our customers, helping them to save time and increase productivity by sending contracts and documents directly from Salesforce into ContractWorks. Contracts can then be sent out for signature, filed, tagged or tracked.” says CEO of ContractWorks, Will Reynolds.
